

# End the Wars & Occupations Now!

**ENDLESS WAR:** Seven years ago, the US invaded Iraq — a war that continues with no end in sight. In December, President Obama began to escalate the war in Afghanistan — when only 100 Al Qaeda members remain in that country. Scheduled Iraq troop withdrawals still leave thousands of contractors and mercenaries behind as occupiers. In the face of a humanitarian crisis in Gaza, the US continues to finance Israel's war on Palestine.

## Fund People's Needs Not Corporate Greed

Now, the Obama administration has introduced a budget that includes the largest amount for “defense” spending ever — while freezing domestic spending for human needs. There is no health care bill, no action on climate change. All Washington can agree on is to feed our tax money to big banks and an endless war.

Politicians' excuses for these failures have ranged from blaming immigrants and other working people to scaring us with 'terrorist' threats. These same politicians will not end the violence until we force them to. With rampant job losses and cutbacks in social services, it's time now more than ever to oppose costly wars that rob precious public resources from housing, healthcare, education, and a host of other public needs.

**Join us — and thousands throughout this nation to mark the grim anniversary of seven years in Iraq.**

# March 18 - 5:30 PM

**Short rally at Federal Plaza**  
(corner of Adams & Dearborn Streets)

**Followed by permitted march on Michigan Avenue.**

And join us in mobilizing for a united march on Washington, DC on Saturday, March 20th. Buses available from Chicago. For more information about this and other events:
