

On January 20, people from across this nation will gather in Washington DC to protest the second installation of George Bush as U.S. president.

We gather for a sweeping range of reasons, from support for affordable health care and immigrant rights to our opposition to the war in Iraq.

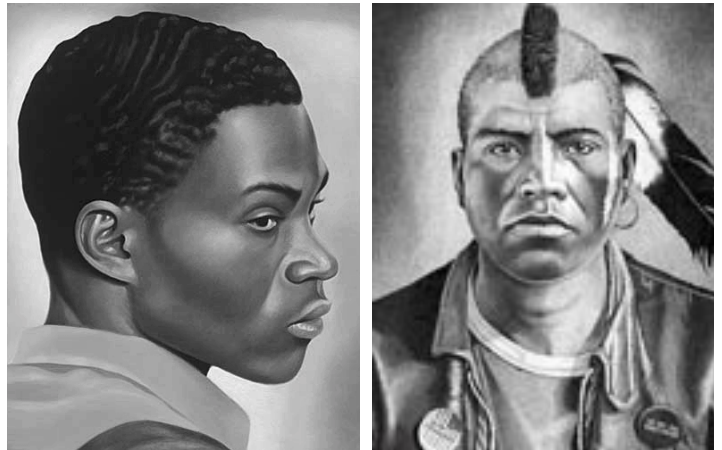

One thing above all else unites us – our opposition to the Bush regime and its congressional supporters – and our diversity is our strength. Join us.

# Counter Inaugural Protest

Thursday • Jan. 20  
Washington, DC
